

AGC Tool Box Safety Talk

HOT WEATHER

INTRODUCTION

1. Review any accidents or “near accidents” from the past week.
2. Describe the hazards of the work as they relate to your project. Explain or show the SAFE way of doing the job.
3. Give the TOOL BOX SAFETY TALK

Working in high temperatures and/or humidity can lead to heat-induced illnesses such as heat stress, heat exhaustion, or the more severe heat stroke, which can result in death. When working in hot weather take these precautions:

- Know the signs/symptoms of heat-related illnesses; monitor yourself and coworkers.
- Block out direct sun or other heat sources.
- Use cooling fans/air-conditioning; rest regularly.
- Drink lots of water; about 1 cup every 15 minutes.
- Wear lightweight, light colored, loose-fitting clothes.
- Avoid alcohol, caffeinated drinks, or heavy meals.
- If someone exhibits symptoms of heat stress move them to a cool, shaded area; loosen or remove heavy clothing; provide cool drinking water: and fan and mist the person with water.

TOOL BOX SAFETY TALK – Week 17

TOPIC: HOT WEATHER

To be **Completed** during the week of **04/16/2012**

Please **Return** to the Safety Department by **04/23/2012**

Safety Fax: 480-726-0277
