

AGC Tool Box Safety Talk

ANIMALS, INSECTS, SNAKES, AND POISONOUS PLANTS

INTRODUCTION

1. Review any accidents or “near accidents” from the past week.
2. Describe the hazards of the work as they relate to your project. Explain or show the SAFE way of doing the job.
3. Give the TOOL BOX SAFETY TALK

Plants and animals can cause rashes, illness, and even death. Outdoor work can expose you to animal bites, such as from dogs or snakes, and to plants like poison ivy and poison oak. To prevent problems:

- Watch for snakes, animals and insects that may be seeking shelter in high grass, debris or equipment.
- Steer clear of any animals.
- Wear the recommended protective clothing such as boots and gloves.
- If you are allergic to insect bites or stings, carry your emergency kit to control the reaction. It is advisable to notify your supervisor of your allergy.
- Learn to identify the poisonous snakes, spiders and stinging insects in your area. Snakes are unlikely to bite unless they are trapped or threatened.
- Learn to recognize and avoid poisonous plants such as poison oak, ivy, and sumac.
- Seek treatment immediately for bites or contact with poisonous plants.

TOOL BOX SAFETY TALK – Week 18

TOPIC: ANIMALS, INSECTS, SNAKES AND POISONOUS PLANTS

To be **Completed** during the week of **04/23/2012**
 Please **Return** to the Safety Department by **04/30/2012**
