

# AGC Tool Box Safety Talk

## GASOLINE HAZARDS

### INTRODUCTION

1. Review any accidents or “near accidents” from the past week.
2. Describe the hazards of the work as they relate to your project. Explain or show the SAFE way of doing the job.
3. Give the TOOL BOX SAFETY TALK

A single gallon of gasoline has the explosive energy of several sticks of dynamite. It is the gasoline vapors, not the liquid that are likely to ignite. The vapors are heavier than air, and can move around in unventilated areas like a fluid. Static electricity will ignite gasoline, and the results can be disastrous. Take these precautions when using gasoline:

- Use gasoline only for its intended purpose - to fuel an engine.
- Do not use gasoline as a solvent, cleaner, barbeque starter, or for any other non-engine use.
- Only use gasoline products outdoors, in well-ventilated areas.
- Avoid smoking, lighting matches, or using lighters around gasoline.
- Do not use or store gasoline near possible ignition sources, such as electrical devices, oil or gas-fired appliances, or any other device that contains a pilot flame or a spark.
- Store gasoline in approved containers and appropriately label the container.
- When emptying gasoline from one container to another make sure the containers are properly grounded.

# TOOL BOX SAFETY TALK – Week 42

## TOPIC: GASOLINE HAZARDS

To be **Completed** during the week of 10/08/2012  
 Please **Return** to the Safety Department by 10/15/2012

Safety Fax: 480-726-0277
