

AGC Tool Box Safety Talk

WORKING AROUND HEAVY EQUIPMENT

INTRODUCTION

1. Review any accidents or “near accidents” from the past week.
2. Describe the hazards of the work as they relate to your project. Explain or show the SAFE way of doing the job.
3. Give the TOOL BOX SAFETY TALK

Being struck is the biggest danger in roadwork. Workers on foot must be alert at all times. To help avoid accidents, take these precautions:

- Wear appropriate high-visibility clothing, proper class of safety vest, and head gear.
- Check surroundings often. Listen for warnings.
- Know the traffic control plan and stay clear of vehicles.
- Work in only those areas necessary to carry out the job at hand. Where possible, stay behind barriers.
- Stay out of “blind” spots and outside a “safety circle” around equipment. If you can’t see the operator, he/she can’t see you. Make eye contact with the operator to let him or her know that you are there.
- Communicate with operators by radio and/or eye contact and confirm acknowledgement.
- Use spotters when you must work with your back to equipment or traffic.

TOOL BOX SAFETY TALK – Week 49

TOPIC: WORKING AROUND HEAVY EQUIPMENT

To be **Completed** during the week of 11/26/2012
 Please **Return** to the Safety Department by 12/03/2012
